

Robinhood to FactSet: 10-Client Strategic Roadmap 2026

A precision-engineered recruitment playbook targeting 10 high-growth fintech and financial data clients — from Robinhood to FactSet. This roadmap covers 290 hires, phased engagement strategies, niche talent sourcing tactics, and a projected gross margin of **₹3,90,60,000** for 2026.

2026 STRATEGIC PLAN

290 TOTAL HIRES

10 TARGET CLIENTS

Robinhood — 10-Hire Strategic Roadmap

Robinhood demands a high-impact, boutique approach. Skip the standard staffing pitch — lead with a **"Poach List"** of 3 top-tier engineers from Coinbase or Revolut sent directly to their Engineering Directors. As the engagement matures, position as a Retained Boutique for Director/VP-level searches, moving the fee from 6% to **15–20%** for senior leadership.

30-Day Execution Checklist

1. Identify 5 Senior Engineers at Webull or S&P Global specializing in "Low-Latency Infra."
2. Reach out directly to VP of Engineering/Product via network — not HR.
3. Use a "Teaser Profile" (e.g., "Built the order-matching engine for X") to create FOMO without revealing the candidate's name.
4. Close 5–10 hires at avg. CTC of ₹80L–₹1.2Cr (Global/Remote/High-End Tech).

Financial Revenue Projection

Metric	Value
Avg. CTC Range	£80,000 – £120,000
Midpoint CTC	₹1,00,00,000 (~£95,000)
Commission Fee	10% (Hard-to-Fill premium)
Revenue / Hire	₹10,00,000
Total Yearly Revenue	₹1,00,00,000

i Competitive Edge: Pitch as the agile "Binc" alternative for impossible-to-fill roles. Headhunt directly from millennial-brokerage rivals — Webull and SoFi.

Stripe & Broadridge — 30-Hire Roadmaps

STRIPE — 30 HIRES

Phased Strategy

Stage 1 — Talent Bridge

Pitch a "Competitor Migration" plan: poach backend engineers from Adyen, PayPal, or Razorpay. Target: Backend Engineers (Go/Ruby), Payments Infra Devs.

Stage 2 — Tech-Audit Pilot

Secure a trial for Risk & Fraud roles. Use "Code-Logic Scorecards" vetting for ledger systems and PCI compliance. Target: ML (Radar), Risk Analysts, Compliance Ops.

Stage 3 — Global GCC Partner

Position as India Scaling Engine for Stripe Delivery Centers (SDC) in Bengaluru (Prestige Tech Pacific Park). Target: Implementation Engineers, Solutions Architects, Customer Success (Enterprise).

Niche Pitch: Stand out from Allegis/Randstad as a Fintech-Only Boutique that understands Money Movement logic and vets for "Stripe Culture" (rigor + grit).

Midpoint CTC	₹27,00,000
Commission	6% (entry partnership rate)
Revenue/Hire	₹1,62,000
Total Revenue	₹48,60,000

BROADRIDGE — 30 HIRES

Phased Strategy

Stage 1 — Entry Wedge

Present 10 pre-vetted Java/Python devs with Capital Markets exposure (post-trade/clearing). Target: Java/Spring Boot Devs, Data Ops Analysts, QA Automation.

Stage 2 — Domain Pilot

Secure 5 "Data-Deep" roles; screen for Corporate Action or Proxy Voting logic. Target: Blockchain/DLT Engineers, BondGPT/AI Devs, Financial Data Analysts.

Stage 3 — Volume Engine

Become an RPO partner for "Pod" expansions in Hyderabad/Bengaluru. Target: Product Managers, Technical Architects, DevOps Engineers.

Speed Play: Displace Collabera/Allegis with a **48-hour CV turnaround**. Focus on Hyderabad's Digital Ledger Repo (DLR) and Blockchain leadership. Pitch "Product-First Engineers" who understand the *why* of the trade lifecycle.

Midpoint CTC	₹22,00,000
Commission	6% (market disruptor rate)
Revenue/Hire	₹1,32,000
Total Revenue	₹39,60,000

Coupa & Atlassian — 30-Hire Roadmaps

COUPA — 30 HIRES

01

Stage 1 — BPO/Managed Services Wedge

Partner with Genpact or WNS for high-frequency hiring of recurring ops roles. Target: Procure-to-Pay (P2P) Analysts, AP Specialists, Sourcing Associates.

02

Stage 2 — Implementation Partners

Pitch to Accenture, Deloitte, or Infosys for bulk "pods" of consultants for global Coupa/Ariba rollouts. Target: Coupa Functional Consultants, SAP Ariba Architects, Integration Leads.

03

Stage 3 — Direct Rivals (MSCI/GEP)

Target GEP (Mumbai/Hyderabad) or Zycus (Pune/Mumbai). Use "Candidate Scorecards" to displace generalist vendors. Target: SaaS PMs, AI/ML Engineers (Spend Analytics), Solution Architects.

- ❏ Differentiators: "Specialist" label (BSM & S2P ecosystem only), 48-hour Shortlist Guarantee for P2P roles, and free Salary Benchmarking Reports for Bengaluru vs. Hyderabad. **Total Revenue: ₹39,60,000**

ATLASSIAN — 30 HIRES

01

Stage 1 — Partner Entry

Partner with Atlassian Platinum Partners (Adaptavist, Appfire, Cprime). Pitch "Ready-to-Deploy" Jira and DevOps squads. Target: Jira Admins, Atlassian Consultants, DevOps Engineers.

02

Stage 2 — GCC Wedge (Bengaluru)

Connect with Atlassian's Bengaluru hub. Highlight global staffing compliance expertise to scale "Newlassian" engineering teams. Target: Java/React Devs (Forge/Connect), SREs, Product Security Engineers.

03

Stage 3 — Agile & ITSM Scale

Find Agile Coaches and ITSM Experts for on-prem to Atlassian Cloud transitions. Target: Scrum Masters, ITSM Solution Architects, Migration Specialists.

- ❏ **Smart Play:** Build a talent pool of engineers who understand LLMs and Agentic AI integration within the Atlassian suite (Rovo). Provide Technical Scorecards on ScriptRunner, Bitbucket Pipelines, and JSM. Pitch: *"We find the people who build the culture of work."* **Total Revenue: ₹41,40,000**

Moody's & Revolut — High-Value GCC Strategies

MOODY'S — 30 HIRES

Stage 1 — Analytics Wedge

Target Gurugram & Bengaluru TA heads with a "Competitor Migration Map" (talent from S&P/MSCI). Target: KYC/AML Analysts, Risk Modelers, Data Engineers.

Stage 2 — ESG/Tech Pilot

Secure 4–5 high-demand roles using Scorecards that vet for both Python/SQL and credit logic. Target: ESG Sustainability Analysts, Python/Java Devs, Cloud Engineers.

Stage 3 — PVL Integration

Enter the Preferred Vendor List by demonstrating superior retention rates in Delhi-NCR/Bengaluru. Target: Associate Directors, Credit Researchers, Product Managers.

Key Insight: In 2026, Moody's is integrating Generative AI into credit workflows. Pitch "Hybrid Talent" — people who understand credit risk AND work with AI/ML tools. Focus on Gurugram for Risk/Ops and Bengaluru for Engineering/Product. Pre-vetted pipeline of 15 ESG Analysts from Morningstar is a powerful hook.

Midpoint CTC	₹24,50,000
Commission	6%
Revenue/Hire	₹1,47,000
Total Revenue	₹44,10,000

REVOLUT — 50 HIRES

Stage 1 — High-Volume Ops

Pitch a "FinCrime Talent Pool" — Revolut's India GCC drives global fraud detection. Offer 10 pre-vetted AML/KYC analysts. Target: FinCrime Analysts, AML Investigators, KYC Specialists.

Stage 2 — Domain Expertise Pilot

Secure a trial for Product & Engineering; find "10x talent" for their 2026 India product launch. Target: Python Developers, Backend Engineers, Product Managers.

Stage 3 — GCC Lifecycle Partner

Move into CX and Credit Ops; handle 30+ closures annually. Target: Support Specialists (24/7), Credit Underwriters, Data Analysts.

Key Insight: Revolut is adding **1,600 roles in India through 2026**. Vet for "Never Settle" and "Radical Honesty" culture. Remote-friendly hiring across India widens the talent net. High-volume strategy: ₹48L from 50 hires vs. ₹39L from 30 hires (MSCI/FactSet model).

Midpoint CTC	₹16,00,000
Commission	6%
Revenue/Hire	₹96,000
Total Revenue	₹48,00,000

MSCI & Morningstar — ESG & Quant Intelligence

MSCI — 30 HIRES

1

Stage 1 — Entry Wedge

Pitch "Competitor Intelligence": provide a talent map of Morningstar/S&P Global analysts to MSCI's Mumbai/Pune GCC heads. Target: ESG Ratings Analysts, Data Engineers, Index Associates.

2

Stage 2 — Success Pilot

Secure a trial for 3 high-burn roles. Use "Candidate Scorecards" to vet for Barra/RiskMetrics logic beyond just coding. Target: Quant Researchers, Python/Financial Devs, Climate Data Scientists.

3

Stage 3 — Volume Dominance

Transition into Preferred Vendor List (PVL); take over 100% of a specific division (e.g., ESG Ops). Target: Product Managers, Client Service Ops, Risk Analysts.

 MSCI is vendor-locked — use FactSet/Morningstar as warm-up case studies. Focus on Mumbai (HQ) and Pune (Analytics). Pitch "Knowledge Lifecycle Support" — find people who understand the *math behind the data*, not just the coding.
Revenue: ₹39,60,000

MORNINGSTAR — 25 HIRES

1

Months 1–2: The Wedge

Target Data Operations & ESG Heads. Lead with a "Competitor Attrition Report" (FactSet/MSCI) to show where talent is moving.

2

Months 2–4: The Pilot

Secure high-burn volume roles: ESG Analysts and Data Quality Analysts. Prove speed by filling 3–5 roles in 30 days.

3

Months 4–9: The Scale

Expand into Morningstar Direct tech stacks (Python/Cloud). Use domain screening to beat generic RPOs on technical fit.

"Alpha Metrics" for Monthly Reviews:

- **Talent Quality Score:** Present a "Competency Match %" for every candidate.
- **Sourcing Diversity:** Aim for 60% of candidates from direct competitors (MSCI/FactSet).
- **Offer Acceptance Rate (OAR):** Target 90%+ by pitching the Morningstar Research brand over just high salary.

 Hook: Solve "Monotonous Work" attrition by pitching candidates who value the Morningstar brand. **Revenue: ₹33,00,000** (25 hires × ₹1.32L)

FactSet — 25-Hire Strategic Roadmap

FactSet India demands deep domain expertise in Order Management Systems (OMS), Execution Management Systems (EMS), and investment lifecycle workflows. The strategy is built on a "Double-Vetted" candidate model — testing for both SQL/Python proficiency and Fixed Income/Equity domain knowledge — to decisively displace generalist vendors like Randstad and Michael Page.

Our Value Proposition

"Double-Vetted" candidates: SQL/Python proficiency tested alongside Fixed Income/Equity domain knowledge. Niche-specific pipelines — not generic CVs — is the core differentiator against Randstad and Michael Page.

Financial Target

Annual Hire Target	25 Hires
Average CTC	₹22,00,000
Commission Fee	6% (strategic partnership rate)
Revenue / Hire	₹1,32,000
Total Annual Revenue	₹33,00,000

Consolidated Revenue Projection — All 10 Clients

Across all 10 target clients, the 2026 roadmap projects **290 total hires** generating **₹4,69,60,000 in gross revenue** and a **₹3,90,60,000 gross margin** after ₹79,00,000 in total costs. Revenue is evenly distributed at ₹1,17,40,000 per quarter.

Client	Hires	Annual Revenue	Q1	Q2	Q3	Q4

Gross Margin	—	₹3,90,60,000	₹97,65,000	₹97,65,000	₹97,65,000	₹97,65,000

Revenue Breakdown by Client

Revenue Highlights

Robinhood is the highest-revenue client at ₹1,00,00,000 — driven by a premium 10% commission on hard-to-fill crypto and low-latency engineering roles in the UK/EU market.

Revolut is the highest-volume client at 50 hires, generating ₹66,00,000 — a high-volume, lower-margin play compared to Robinhood's high-margin, low-volume model.

Stripe, Moody's, and Atlassian form the mid-tier revenue band (₹41L–₹49L), each contributing meaningfully through 30-hire engagements at 6% commission.

MSCI, Coupa, Broadridge, FactSet, and Morningstar anchor the base at ₹33L–₹40L, providing stable, predictable revenue through domain-specialist positioning.

Our Competitive Edge — Why We Win

Across all 10 clients, our strategy is built on a single, repeatable competitive advantage: **domain-deep boutique positioning** that generalist firms like Randstad, Adecco, Allegis, and Collabera simply cannot replicate.

Niche-First Sourcing

We headhunt directly from competitors — Coinbase for Robinhood, Adyen for Stripe, Morningstar for MSCI. Competitor migration maps and pre-vetted talent pools create immediate FOMO and credibility with hiring managers.

Speed to Delivery

48-hour CV turnaround for Broadridge and Coupa. 30-day fill guarantee for Morningstar pilot roles. Automotive-style recruitment speed for Revolut's 50-hire volume engine.

Domain Scorecards

Every candidate is assessed on domain logic — Barra/RiskMetrics for MSCI, PCI/ledger systems for Stripe, Corporate Action logic for Broadridge. We test for the *why*, not just the *how*.

Scalable Fee Architecture

Entry rates of 6% to win against Tier-1 vendors, scaling to 15–20% for retained Director/VP searches at Robinhood. Fee strategy mirrors client maturity and role complexity.

✅ **2026 Mission:** 290 hires. ₹4,69,60,000 in revenue. ₹3,90,60,000 gross margin. One boutique. Ten clients. Zero generalists.
